EXPERTISE FROM EXPERIENCE

Erwin has been working in the field of interior design for two decades now. In that time, Erwin has completed projects ranging from residential, hospitality, corporate, and commercial spaces in Bahrain.

Erwin's expertise in designing spaces that are both functional and beautiful, he loves working with clients who want to add a little bit of aesthetic flair to their space without sacrificing functionality.

What sets apart Erwin Ereno Design and Co. is that we take pride in our ability to listen to our clients' needs, and then design spaces with them in mind. We believe that a great design should be both functional and beautiful—and we work hard to make sure that both are taken into account when we're designing your space.

TEAM

Our team of Interior designers and license Architects work tirelessly to bring our vision to life. From concept drawing to the actual Construction, we are there every step of the way ensuring that the company's vision is realized in each project we take on.

ARCHITECTURAL DESIGN
PROJECT

RIFFA, SAUDI ARABIA

Our interpretation of a villa design set in the Arabian context. The combination of warm tones, textures and the use of geometry create an interesting play in volume and a distinct silhouette.

ARCHITECTURAL AND INTERIOR DESIGN PROJECT

ADLIYA, BAHRAIN

Bar and Lounge design inspired by our take on traditional Japanese origami and bright colors. The additive form of the structure adds volume to the scene by using individual triangular frames bent and molded around the existing building. A semi translucent skin is composed with different shades of color that inspires energy and freedom. By contrasting this with cold textures of concrete and corten steel the duality between the two inspires balance.

OFFICER'S CLUB PROJECT

NABI SALIH, BAHRAIN

Inspired by the warm tones and natures of the Arabian peninsula, The concept of this design follows the character of the desert and sea's which we interpreted as a space that exudes freedom. The design brings this to life through opulent material finishes, patterns and design techniques to inspire its users in the space.

ARCHITECTURAL DESIGN PROJECT

BAHRAIN

The Hiraya Block is a residential and commercial development located in Bahrain that is composed of two mixed use structures that houses high end apartment units and small commercial spaces aimed to bring together a seamless experience between everyday life and modern outdoor living. Each apartment structure houses 36 units at 200 sqm. each distributed horizontally over 6 floors. The alternating layout creates a distinct pattern on the facade providing each unit a unique place on the building. The ground floor accommodates a luxurious and spacious lobby that transitions into a commercial and amenities wing that supplies lounging, entertainment, health and wellness for its tenants.
